“A sleek and durable exhibit”

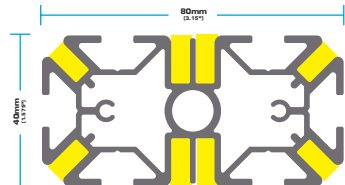

**ARCHITECTURAL EXHIBIT**

Panoramic is a modular exhibit system that virtually disappears behind beautiful fabric graphics which fully cover its structure

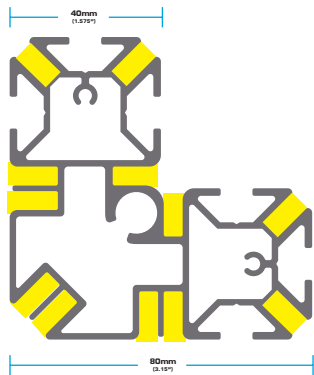

A series of 20 horizontal lines for taking notes, spanning the width of the page on the right side.

EXTRUSION FRAMES CARRIED IN STOCK

“ Panoramic™ takes full advantage of SEG graphics ”

## SEAMLESS

## COMMUNICATION

PANORAMIC™ aluminum extrusion frame is a unique concept. The entire display is transformed into one continuous fabric graphic design. The exhibit structure truly becomes your brand image or message. The SEG (silicone edge graphic) fabric graphics are of the highest image quality and custom finished to match your specific design. The fabric graphics fold up making your entire display easy to store and transport.

## Exhibit Components

## DETAILS WHICH MAKE A

## DIFFERENCE

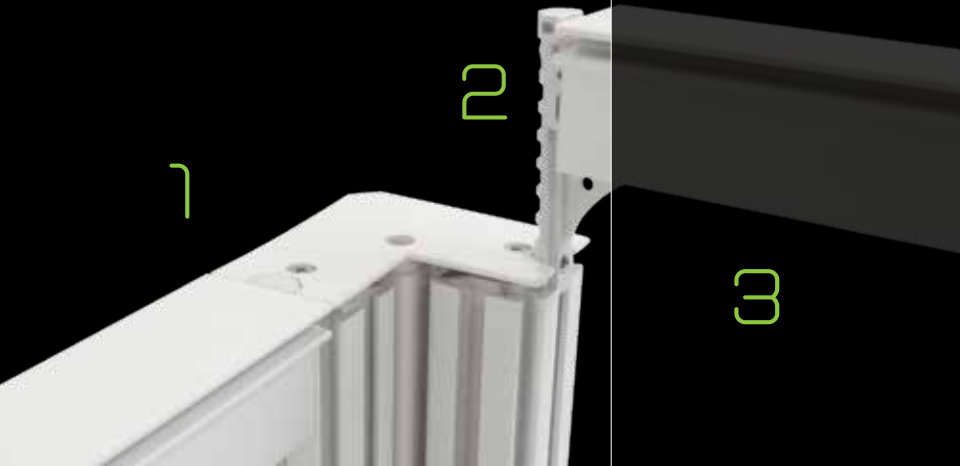

- frame structure is simple to work with
  - fewer parts and pieces
  - easy wire management
- convenient packaging system
- white powder-coated finish resists dirt and it looks great
- simple label system of all parts
  - grows with your exhibit needs
- accessories like monitor mounts, shelves and bases

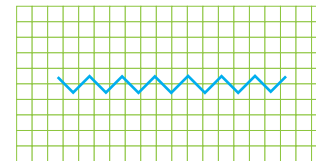

# “ Quick & stress-free setup ”

## SET UP

- 1 Each configuration is pre-mounted: the caps are attached to the aluminum profiles
- 2&3 The profiles quickly assemble thanks to an angled bracket that is invisible after set-up

# Exhibit Components

“ Putting up your booth has never been this simple ”

20ft x 10ft

# “ Manage your costs & logistics ”

## GRAPHIC

With SEG graphics there is a silicone edge on every side. Your graphic is easily inserted into the aluminum profiles and is always perfectly stretched without wrinkles.

## GRAPHIC

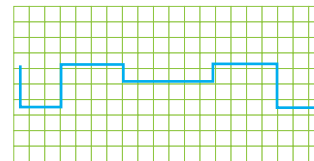

## TRANSPORT

A simple envelope is enough to transport the graphics covering your exhibit.

## INSTALLATION

# Exhibit Components

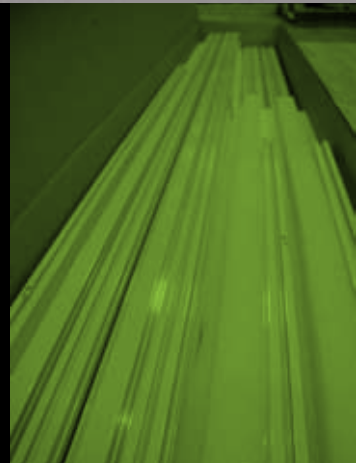

20ft x 10ft

“ Change your message every day of the show ”

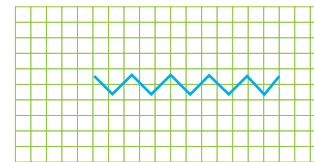

## TRANSPORT

With up to 40% less materials than configurations of the same size in other systems, with Panoramic™, your set-up time is optimized, and transport and storage are more economical.

## Exhibit Components

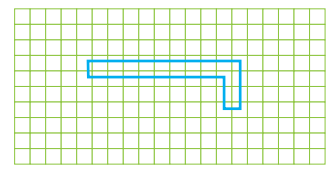

“ Choose from existing exhibit components, combine to create unique exhibit spaces or add them to your existing exhibit. Since only the graphic is visible, Panoramic™ exhibit components go with any display. ”
