The Xpressions® SNAPSHOT™ is a unique combination of the ever popular SNAP™ pop-up frame and Lambda photo or UVdirect print graphics. Rollable graphics are precisely finished with radius corners and outfitted with black rubber loops. Slip the rubber loop over the SNAP™ hubs and your graphic is suspended within a single quad. Choose from flats, threads or twist style 1x1 graphics to produce Xpressions® displays. Five dynamic SNAPSHOT™ kits exist or custom-create your own.
