

## THREE-SIDED CURVE

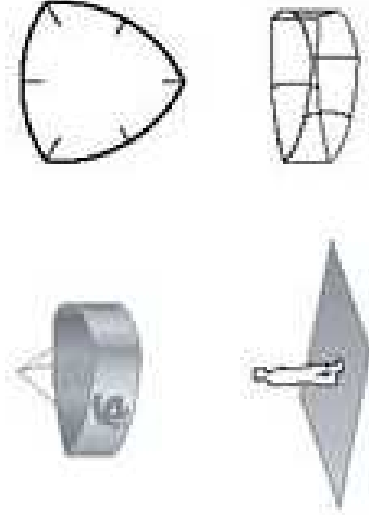

### THREE-SIDED CURVE

Take away those sharp edges with the Aero™ Overhead Three-Sided Curve. This shape is a triangle with some serious circle envy.

You get the benefits of both a circle and a triangle: maximum visibility, visual balance, and captivating “eye candy.” Plus, it comes in a many sizes at its circle and triangle cousins.

Custom sizes are available. For a little more “eye candy” add rotation and lighting.

### SPECIFICATIONS
